Subject: banner notice

These are the banners that we propose to display when XCP CDs and banner-equipped MediaMax CDs are inserted into computers with active internet connections. The "A" and "B" banners will rotate, so the effect will be that "Class Action Settlement" and "This CD Recalled" will alternate/flash on XCP CDs, and "Class Action Settlement" and "Important Software Update" will flash on MediaMax CDs.

Please let me know if you have any comments.
